Since its establishment in 2003, Cemre has been operating in the energy, construction, and electromechanical sectors. The company provides services in contracting, engineering, design, project planning, and panel manufacturing.

Cemre acts as a distributor, application partner, and project collaborator for some of the world's leading companies with extensive and high-quality product ranges, including Siemens, Schneider Electric, ABB, Legrand, Prysmian Kablo, Hes Kablo, Birtaş Kablo, and Öznur Kablo.

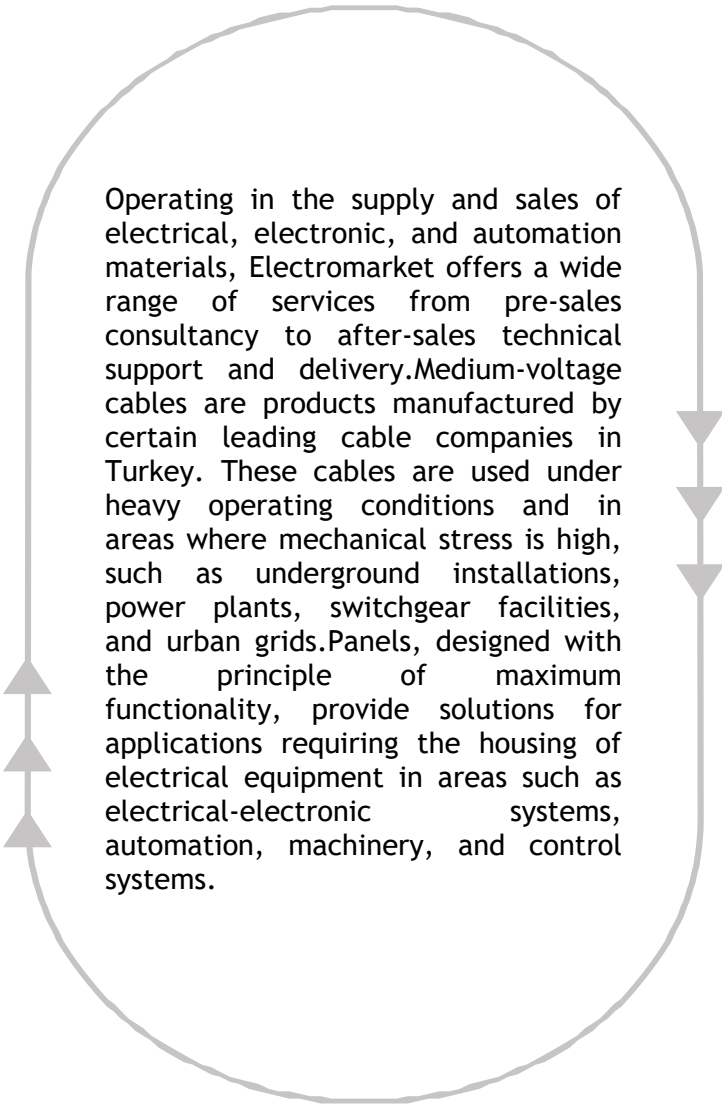

With logistics bases in the Marmara and Central Anatolia regions and a highly modern management center, Cemre DTC's headquarters is located in Istanbul. The company also provides commissioning, testing, training, and maintenance services with its expert staff.

As a leader in supplying products and providing engineering services for medium-voltage systems, lighting, and energy distribution and control in industrial facilities, Cemre today serves the world—primarily Turkmenistan—through its strong export potential.

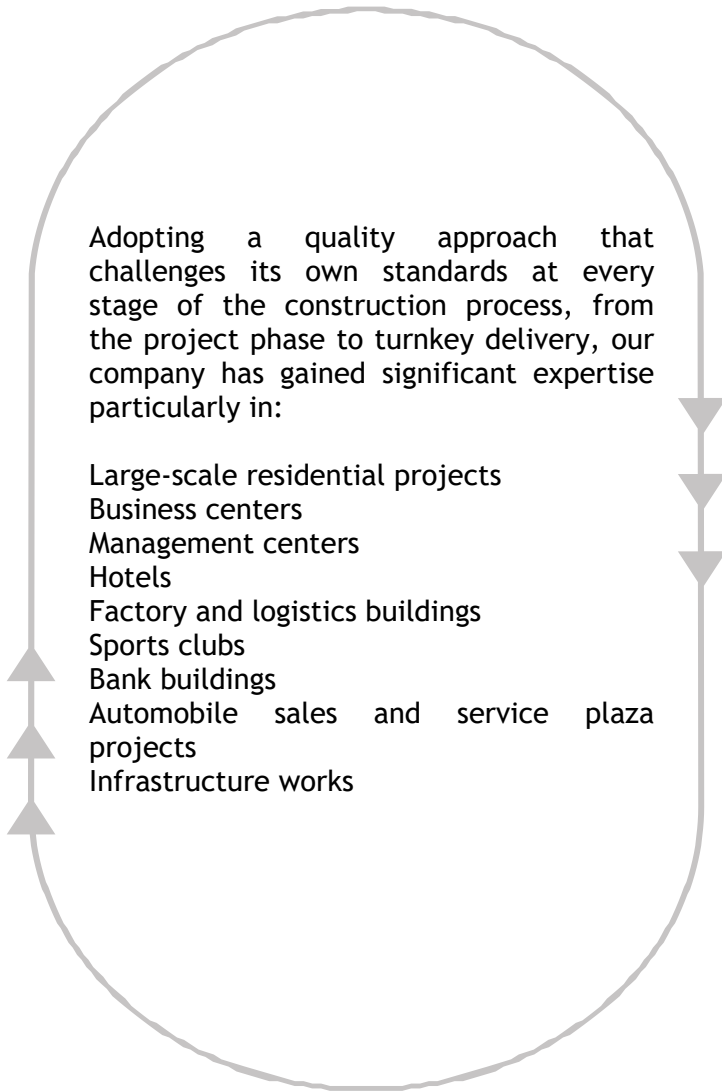

By seizing opportunities in the sector, our goal is to create value for our business partners, customers, employees, suppliers, and society. We believe that with our principle of continuous improvement, innovation, teamwork, and commitment to our values, we will keep moving forward.
